

# Do you want to quit smoking?

## We will support you

On the one hand we have new valid legal rules on the other hand we see the everyday reality. The number of smokers is not decreasing despite difficult conditions (reduction of smoking spots, ban on cigarettes sale in the hospital). The support during tobacco cessation is essential. Therefore we plan activities which are good starting point to quit smoking. Discount on supportive devices in the hospital pharmacy, counselling at the workplaces, workshops, outpatient department for tobacco cessation in the main building.
